Getting our hands dirty!

Obligatory Cat Picture

I love you, couch.

You understand me.

Recap

or things I forgot

- * REST API
- * Document Database
- * Built for concurrency
- * Query using Map / Reduce

Other things I did not have time for

- * Awesome Replication
- * Changes API
- * Couch Apps
- * Security
- * Validation Functions

Cool stuff

- * Lounge - clustering couch using reverse proxies
- * Couchbase - clustering and adding a memcached API
- * Couch Lucene - search
- * Cloudant - hosted service with free plans - go play!
- * Touch-DB - couch compatible DB for iOS and Android
- * guide.couchdb.org

Thank You & Questions
